

Nadi International Airport

TRAVEL SAFE

Nadi International Airport would like to advise passengers of the following COVID-19 safety measures that need to be observed and complied with at all times to ensure your safety and wellbeing during your airport journey.

PCR/GENE TEST

- You will be required to present a negative PCR/Gene test to get entry into Nadi International Airport. This new requirement is in light of our COVID-19 cases. All outgoing passengers are required to have a PCR/Gene report issued 72 hours before arriving at Nadi International Airport. Passengers without this report will be denied entry. Children below the age of 2 years are exempted.

Health Screening

- All passengers will be screened at Nadi International Airport. Temperature screening will be carried out in our departures and arrivals screening areas. Passengers will not be allowed to fly if their temperature is above 37.4 degrees.

No Farewellers

- Farewellers seeing off passengers will not be permitted entry into the airport. Only travelling passengers with a valid flight ticket can enter the terminal. For arriving passengers, public will not be permitted into the airport.

Washing hands regularly

- We are encouraging our passengers to regularly wash your hands. Please wash and sanitise your hands regularly and keep a safe distance from other passengers where you can.

Medical personnel

- Our health and medical personnel will be on the ground to provide assistance.

Face masks mandatory

- As part of the new normal and to further enhance safety measures all passengers are required to wear face masks. Children below the age of 6 years are exempted.

Social distancing

- Passengers will be required to practise social distancing throughout your airport journey by keeping a safe distance. Markers have been placed on terminal floors and on seating to help you keep a safe distance from other travellers where you can.

Cleaning and disinfection

- We have additional cleaning and disinfection routines to ensure all high contact surfaces are being rigorously cleaned and disinfected after each flight. Handrails on escalators, boxes at security check points, luggage trolleys, counters etc undergo intensive cleaning and disinfecting.

Hand sanitizer stations

- Hand sanitizer stations will be available throughout the terminal to ensure our passengers are sanitizing their hands and maintaining personal hygiene.

careFIJI app

- It is mandatory to download Fiji's digital contact tracing app - careFIJI. Please click on the app store icon above to download it. The careFIJI app will be checked before proceeding into arrivals/departures.
